2. The invention was related to the work that I was employed to perform and was made within the scope of my employment duties. The invention was made during working hours and with the use of facilities, equipment, materials, funds, information, and services of my employer.

3. The present invention relates to fluorescent dye compounds and uses thereof, such as DNA analysis.

4. To the best of my knowledge and belief, the invention was not made or conceived in the course of, or in connection with, or under the terms of, any contract, subcontract or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors: Energy Research and Development Administration or the Department of Energy.

6. I hereby declare that all statements made herein of my own knowledge and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that willful false statements may jeopardize the validity of the application or any patent issued thereon.
